

2015 Winter Code Updates

Wisconsin's regional inspector associations, in cooperation with the Wisconsin Department of Safety & Professional Services, Industry Services Division, are offering training sessions in early 2015 about Wisconsin's Electrical Code, Uniform Dwelling Code, and Commercial Building Code. These courses can provide continuing education credits for Industry Services administered inspection and DCQ credentials. Fire inspectors, designers, contractors, and others with an interest in Wisconsin's codes may also benefit from the programs.

Individuals holding Industry Services credentials can check their continuing education status online at <https://app.wi.gov/licensesearch>. After entering an individual customer identification number in the "Specific Credential/License ID" search field, and selecting "Search," results will appear. By clicking the name in the search results, the current continuing ed status will be shown. If you have questions regarding a continuing education status, contact the Credentialing Unit at DSPS DLCREDTrades@wisconsin.gov.

The Association's web sites show specific program agendas:

Southwest WI Building Inspectors Association (SWWBIA)	swwbia.com
Southeast WI Building Inspectors Association (BIASEW)	biasew.net
Northwest WI Building Inspectors Association (NWBIA)	nwbia.org
Northeast WI Building Inspectors Association (BIANEW)	bianew.org
East Central WI Association of Electrical Inspectors (ECWAEI)	ecwaei.org
Electrical Inspectors Association of Southeast WI (EIASEW)	eiasew.org
Southwest WI Electrical Association (SWWEIA)	swweia.org

Registrations are handled by the inspector associations. Please pay close attention as to which association the check should be made out to, as well as the mailing address. Confirmations are not sent. Registration is subject to available space. If a session is full, your registration and check will be returned. Keep copies of this brochure and your registration form. One registrant per form.

For electrical sessions registration is at 7:15 a.m., program at 7:45 a.m. For all other sessions registration is at 7:30 a.m., program at 8:00 a.m. Sessions end at approximately 4 p.m. Credential abbreviations below are: CBI = Commercial Building Inspector, CEI = Commercial Electrical Inspector, UCI = UDC-Construction Inspector, UHI = UDC-HVAC Inspector, UEI = UDC-Electrical Inspector, DCQ = Dwelling Contractor Qualifier, ME = Master Electrician and JE = Journeyman Electrician.

Commercial Electrical Code – A code panel will cover common electrical code violations. Two short topics will also be covered. The first is an overview of the testing of emergency lighting systems. The second will compare and contrast the building and electrical code requirements for emergency power systems with optional and legally required standby systems. All electrical requirements will be based on the 2011 NEC. 6 continuing education credit hours for all electrical license categories will be given, including Registered (Beginning) Electrician. The program includes two short breaks in the morning, one break in the afternoon and lunch at noon.

1 & 2 Family Electrical Code – A code panel will cover common electrical code violations. Two short topics will also be covered. The first is an overview of common alternative power options such as generators, PV, small wind generators and relevant code requirements. The second is intended to assist inspectors and electricians in using the UL White book and some on-line tools to find listing information on electrical products. All electrical requirements will be based on the 2011 NEC. 6 continuing education credit hours for all electrical license categories will be given, including Registered (Beginning) Electrician. The program includes two short breaks in the morning, one break in the afternoon and lunch at noon.

Uniform Dwelling Code - This course will include presentations on wall bracing and truss bracing requirements, NFPA 54 piping requirements as well as discussion from the Department of Health Services (DHS) on UDC covered care facilities (CBRF's). Code panel Q&A (bring your code books) and administrative issues will also be included. 6.5 con ed credit hours for UCI, UHI and DCQ. Includes lunch at noon.

Commercial Building Code – This course will cover sprinkler testing and reporting, emergency lighting and fire inspections, as well as discussion from the Department of Health Services (DHS) on DHS & DPS health care facility requirements. Code panel Q&A and administrative issues will also be covered. 6.5 con ed credit hours for CBI. Includes lunch at noon.

Plumbing – These courses are being offered separately through the association where listed on the registration form. Questions regarding these courses should be directed to the association's contact person. Includes lunch at noon.

Evening Electrical (Lake Delton) - How the building codes effect electricians - This course is being offered separately through the association where listed on the registration form. Course outline can be found on the association's website. Questions regarding this course should be directed to the association's contact person. 3 continuing education credit hours for all electrical license categories (electrician and inspector) including Registered (Beginning) Electrician will be given per night. Includes dinner prior to session.

Send a completed registration form to the **appropriate association, not Industry Services**. Fees vary because of presentation costs. Registration and fees must be received by the Monday the week before the week of the desired session, or a late charge of \$10 must be paid for each day. A confirmation letter will **not** be sent. **Save a copy of the form** for future reference. No refunds will be given after the Monday the week before the week of desired session.
